To determine if this Fund is an appropriate investment for you, carefully consider the Fund's investment objectives, risk factors, charges and expenses before investing. This and other information can be found in the Fund's full or summary prospectus, which may be obtained by calling 1-866-777-8227. Read the prospectus carefully before investing or sending money.

**Risk Disclosure:**

Mutual fund investing involves risk, including possible loss of principal. The Fund pursues a "value style" of investing. If the Adviser's assessment of market conditions, or a company's value or prospects for meeting or exceeding earnings expectations is inaccurate, the Fund could suffer losses or produce poor performance relative to other funds or market benchmarks. In addition, "value stocks" can continue to be undervalued by the market for long periods of time, and may never achieve the Adviser's expected valuation. There can be no assurances that the Fund will achieve its stated objectives. High short-term performance of the fund is unusual and investors should not expect such performance to be repeated.

The Cambiar Opportunity Fund is distributed by SEI Investments Distribution Co. (SIDCO), which is not affiliated with Cambiar or any of its affiliates.

The Russell 1000® Value Index measures the performance of those Russell 1000 companies with lower price-to-book ratios and lower forecasted growth values. Index returns do not reflect any management fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index. The information contained herein: (1) is proprietary to Morningstar (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. The Cambiar Opportunity Fund was rated against 1,095 US-domiciled large value funds over a three year period, 1,036 over a five year period and 808 over a ten year period. With respect to these large value funds, CAMOX received a rating of 4 stars, 5 stars, and 4 stars, respectively. Past performance is no guarantee of future results.
