To determine if this Fund is an appropriate investment for you, carefully consider the Fund's investment objectives, risk factors, charges and expenses before investing. This and other information can be found in the Fund's full and summary prospectus, which may be obtained by calling 1-866-777-8227. Read the prospectus carefully before investing or sending money.

### Risk Disclosure:

Mutual fund investing involves risk, including possible loss of principal. In addition to the normal risks associated with investing, investments in small companies typically exhibit higher volatility. The Fund pursues a "value style" of investing. If the Adviser's assessment of market conditions, or a company's value or prospects for meeting or exceeding earnings expectations is inaccurate, the Fund could suffer losses or produce poor performance relative to other funds or market benchmarks. In addition, "value stocks" can continue to be undervalued by the market for long periods of time, and may never achieve the Adviser's expected valuation. There can be no assurances that the Fund will achieve its stated objectives. Diversification does not ensure a profit or guarantee against a loss. High short-term performance of the fund is unusual and investors should not expect such performance to be repeated.

The Cambiar Small Cap Fund is distributed by SEI Investments Distribution Co. (SIDCO), which is not affiliated with Cambiar or any of its affiliates.

The Russell 2000® Value Index measures the performance of those Russell 2000 companies with lower price-to-book ratios and lower forecasted growth values. The index returns do not reflect any management fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index. The Russell® indices are a trademark/service mark of the Frank Russell Company.

The Russell 2000® Index is a float-adjusted, market capitalization weighted index that measures the performance of the 2,000 smallest companies in the Russell 3000® Index, which consists of 3,000 of the largest U.S. equities.
