Cambiar Investors, LLC (Cambiar) is an independent registered investment adviser with the United States Securities and Exchange Commission. Registration does not imply a certain level of skill or training. Cambiar claims compliance with the Global Investment Performance Standards (GIPS®).

The Europe Select ADR Composite includes discretionary, taxable and tax-exempt portfolios, including portfolios that are part of broker-affiliated or broker-sponsored programs, including dual-contract and certain sub-advisory wrap programs, that waive commission costs or bundle fees including commission costs. Portfolios in the composite invest predominantly in European companies through American Depositary Receipts ("ADRs") and other securities which are traded on U.S. exchanges. The Europe Select ADR portfolios primarily invest in stocks with a market capitalization greater than \$5 billion and typically hold 35-45 securities. The Europe Select ADR Composite contains proprietary assets. As of April 2020, there is no minimum asset level for the composite. Prior to April 2020, the minimum asset level for the composite was \$250,000.

For the periods after 2015, the composite's returns include accounts with gross and "pure" gross performance and are presented as supplemental information. Prior to 2015, the composite contained accounts whose gross performance is reduced by transaction costs. "Pure" gross returns do not reflect the deduction of any expenses, including transaction costs. "Pure" gross returns are applicable to separately managed accounts that are part of broker-affiliated or broker-sponsored programs, including wrap programs, which waive commission costs or bundle fees including commissions (SMAs). Net returns are reduced by transaction costs and actual investment advisory fees and other expenses that may be incurred in the management of the account. SMAs often incur bundled fees, charged by the wrap sponsor or affiliated broker, that may include transaction costs, investment management, portfolio monitoring, consulting services, and custody fees. Net returns for SMAs are calculated by deducting the investment advisory fees from the client's account as reported by the wrap sponsor or affiliated broker, or as received by Cambiar. Cambiar clients may incur actual fee rates that are greater or less than the rate reflected in this performance summary. Fees will vary based on the assets in the accounts. Returns are reported in U.S. dollars.

Performance results for the Europe Select ADR Composite are evaluated against the MSCI Europe Index. The MSCI Europe Index is a free float-adjusted, market capitalization weighted index that measures equity market performance of European developed markets. The index assumes no management, custody, transaction or other expenses. The MSCI Europe Index is a broadly based index which reflects the overall market performance and Cambiar's returns may not be correlated to the index. The index is unmanaged and one cannot invest directly in an index. Cambiar's performance and the performance of the MSCI Europe Index include the reinvestment of all income. Benchmark returns are net of withholding taxes. Prior to July 2019, Cambiar typically followed each custodian's treatment of tax withholding and therefore dividends may have been presented as gross or net of dividend tax withholding depending on the custodian's treatment. As of July 2019, Cambiar typically records dividends net of withholding taxes although it may depend on various factors such as the issue country and custodian's treatment. Withholding taxes may vary according to the investor's domicile, and other reasons. Source: MSCI.
